## To War Veterans Owning Property

Due to considerable misunderstanding of the laws of N. H. relative to the exemption on taxable property, when to file certificates etc., following is paragraph 29, Revised Laws of New Hampshire, 1942, Chap. 73 as amended by Chapters 173 and 174, laws of 1943.

29. SERVICE EXEMPTION. (As amended by Special Session Laws of 1944.) Any veteran who is a resident of this state and who served for thirty days or more in any war in which the United States has been engaged, or in World War II, and received an honorable discharge from the service of the United States in such war, and the wife or widow of any such veteran, in consideration or recognition of such service, shall be exempt each year from taxation upon his taxable property to the value of one thousand dollars, **provided that before April fifteenth of each year he shall file with the selectmen or assessors his application therefor**, under oath, on blanks prescribed by the state tax commission, showing that he and his wife do not own property, exclusive of any bona fide encumbrances thereon, to the value of five thousand dollars. In case such veteran shall satisfy the selectmen or assessors that he was prevented from filing said statement through accident, mistake or misfortune, said selectmen or assessors may receive such statement at a later date and grant an exemption thereunder. If such veteran is totally and permanently disabled from such service connection he and his wife or widow shall be exempt each year from taxation upon his taxable property to the value of three thousand dollars, provided he and his wife do not own property to the value of five thousand dollars, as hereinbefore provided. In case such veteran shall own taxable property in more than one town he shall take his exemption first in the town where he resides. If he does not own the exemption limit in value of taxable property in the town where he resides, he shall be entitled to take the balance of such exemption in any other town in the state where he owns taxable property.

## REPORT OF THE FIREWARDS

Year Ended December 31, 1946

During this year we had a total of 31 runs. Twenty-three of these were for fires, 8 were practice runs. It is very gratifying to see, over the past several years, a continuing reduction in the number of fires.

### Analysis of Fires:

General Alarm	3
Chimney Fires	16
Grass Fires	4
Hose Tests	1
Hydrant Tests	2
State Underwriters Test	1
Practice and Truck Tryouts	4

The addition of the new pumper has improved our equipment very considerably, all of which we believe is in first class condition.

We want to take this opportunity to acknowledge the great service given to us by the Telephone Company and employees.

We extend to the members of the company the sincere appreciation of everyone for their good service and their loyal interest.

Respectfully submitted,

### **Help Your Forest Fire Warden Prevent Fires—It Pays!**

Prevention is one of the most important phases of all fire effort. This is particularly true of forest fire control work. Preventing forest fires preserves valuable forest growth and other property, conserves man power and permits their use in productive channels, saves taxpayers' money and conserves fire fighting equipment.

The prevention of forest fires is the most important and difficult part of the work of your forest fire warden who heads a local organization set up primarily for the security of your community's forest property. Appointed by the State Forester, upon recommendation of the Selectmen, he is charged by law with the responsibility of local administration of forest fire laws, fire prevention and suppression. In his work he is aided by deputy forest fire wardens who, in emergency, may assume his power and authority. The warden is guided in his work by instructions received from the State Forester and by the District Fire Chief who represents the State Forester.

The importance and value of the work of the forest fire warden and his deputies is, perhaps, best appreciated during hazardous periods when fire danger is greatest. The

public, however, looks to him at all times for speedy and economical suppression of going fires.

To properly fulfill his mission, the warden needs the generous and understanding cooperation of the public at large. He attempts to secure this cooperation by the posting of caution notices, news items and by word of mouth, always carefully explaining the necessity of restrictions imposed. In the matter of giving cooperation, however, the public often fails. The record shows that an average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year. Analysis of fire causes reveal the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

The careless smoker fails to properly extinguish his cigar, cigarette or pipe ashes or thoughtlessly throws them from the car window; the debris burner fails or refuses to consult the warden, as the law requires when the ground is not covered with snow, before attempting to burn; campers fail to properly extinguish their fires or frequently build fires when conditions are unfavorable.

The elimination of human causes from the forest fire problem is the answer. This is not as difficult of accomplishment as it might appear at first glance. Let each one who reads this—

1. Use ordinary common sense with fire in and near woodland.
2. Comply with requirements on the use of fire in and near woodland and when the ground is not covered with snow, secure written permission to burn from the forest fire warden.
3. Be careful when smoking in or near woodlands. Don't throw lighted material from moving vehicles.
4. Cooperate with and assist the warden and urge others to do so.
5. **HELP YOUR FOREST FIRE WARDEN PREVENT FIRES**—his efforts are only as effective as is the cooperation you give him!

F. J. BAKER,  
District Fire Chief.

## THE STATE OF NEW HAMPSHIRE

---

To the Inhabitants of the School district in the town of Troy, New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 11th day of March, 1947, at eleven o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.

9. To see if the district will raise \$1,300 under Special Appropriation proposed in School Board's estimated budget.

Given under our hands at said Troy this 27th day of January, 1947.

LAURA J. TALBOT  
DON W. RANDALL  
GEORGE K. RIPLEY

## REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Troy:

I herein submit my fourth annual report as Superintendent of Schools.

One full year has passed since the end of combat in World War II. The end of the war has brought no relief to the deficiencies in the American public school system. The situation has become steadily more critical.

An appraisal of American schools reveals many inadequacies in personnel, facilities and services that are necessary to meet the needs of children and the welfare of the nation.

Teachers leaving the profession since 1939 have formed the greatest exodus in history. A new policy of teachers salaries must be established with consideration for relative pay in other occupations.

Adequate health facilities and programs are non-existent in a very large proportion of schools. Sound health is the most valuable individual and national asset. The health program might well include organized outdoor sports and recreation for all children extended throughout the summer months.

More opportunities should be offered in the school to practice the various duties of citizenship. The financial tribute exacted by crime in general is great. Less than two percent of the population may be classed as criminal. The financial losses caused by this small percent amounts to more than five times the sum spent annually for public education in the interest of all children.

The school lunch program as recommended by the United States Department of Agriculture and sponsored by the State Board of Education is a desirable project. This health service has become a definite part of the day's work in the Troy schools and is operated as an educational need rather than a mere "feeding station".

Three new members were added to the faculty in September 1946: Margaret Griffin replaced Shirley Mills, Eleanor Frye replaced Madeleine Lord and Dorothy Lagrenade was employed as an additional teacher because of the increased enrollment in the lower grades. Plans for marriage effected the two resignations.

The attempt to maintain a music teacher in the schools ended in September 1946 when the Union Music Supervisor, Mr. Rodney Wiggin, resigned to accept a position elsewhere. No other suitable candidate has become available.

Mr. Peter J. Sperandio of North Easton, Mass. became the new headmaster of Troy High School on December 2, 1946. Mr. Sperandio has had several years of successful experience as a science teacher and athletic coach. He has made an excellent beginning in Troy.

## CONCLUSION

The Troy School District provides a good school for its youth. The textbooks are in good condition and are being revised constantly. The equipment for the various vocational and scientific courses is superior. The advantage of a limited enrollment in the upper grades provides an opportunity for much individual attention. The increased enrollment in the lower grades indicates a more limited per pupil cost in the elementary schools even though the total budget is larger.

In conclusion, I wish to thank the teachers, the members of the school board, the nurse and all other school employees for their faithful service to the district. The co-operation of the parents and citizens is also greatly appreciated.

Respectfully submitted,

JOHN H. FRYE,

Superintendent of Schools.

## REPORT OF THE HEADMASTER OF THE TROY HIGH SCHOOL

To the Superintendent of Schools:

I herewith submit my first report as headmaster of the Troy High School.

The material equipment and general up-to-date facilities of the school is certainly a tribute to the citizens of Troy. The Manual Arts Department is superior in equipment and workmanship to the schools with which I have been connected. The Home Economics Department and the Science Laboratory are also very well equipped with materials for demonstrations by the instructor and individual experiments by the students.

The school lacks a commercial department. We should consider the value of a course in bookkeeping and office practice, including typewriting, in order to meet the needs of interested pupils.

The school is fortunate in having a sound projector and screen for visual instruction. We have an agreement whereby the cost of procuring the films is divided among three school districts and all three districts use the films. A great many free films are also available which help to enrich the school offerings and give the students a clearer understanding of various principles. Some of the films which have been shown include the lives of great Americans and travelogues explaining the vast resources of our great country.

### SCHOOL LUNCH PROGRAM

September 1945 to June 1946

#### Cash Income from Program:

Previous balance	\$26.34
Payments for lunches	934.15
Federal aid	636.73

Total cash income	\$1,597.22
-------------------	------------

#### Expenditures for Program:

Expenditures for food	\$1,270.38
Expenditures for labor	278.10

Total expenditures	1,548.48
--------------------	----------

Balance, June 30, 1946	\$48.74
------------------------	---------

Number of C lunches served (September, 1945 to June, 1946)	7,023
--	-------

Number of B lunches served (October, 1945 to April, 1946)	8,529
---	-------

Type C lunch is one-half pint of whole milk (which meets the minimum butterfat and sanitation requirements of State and local laws) as a beverage, for which the maximum rate of reimbursement is two cents.

Type B lunch is an incomplete lunch, hot or cold, which is less adequate nutritionally than type A. The maximum reimbursement therefore is six cents. We plan to start the type A lunch soon which is a complete meal.

### ATHLETICS

In girls' and boys' basketball, teams have entered the Southern New Hampshire Basketball League for the 1946-1947 season. This provides very good competition for the basketball squads with schools of their own size.

In conclusion, I want to thank all those who are helping in any way to maintain the high standards of the schools in Troy.

Respectfully submitted,

PETER J. SPERANDIO,  
 Headmaster.
